

Welcome to Diamond "D" Leather's Gift Item Brochure.

Diamond "D" Leather has been producing leather products in Alaska for the last fifteen years and we are now creating custom gift items. Please look through our brochure and if you have any questions or ideas, call us! We would be more than happy to hear from you.

In the last couple of years we have had many requests for unique Alaska tourist belts. With this in mind, we went to local Alaskan artist, Steve Ortlund who created these wonderful designs (over) that we now emboss on fine oak tanned leather to make these quality belts. If you have ideas for a design you would like to carry in your store, let us know. We are working on new patterns all the time.

Our cell phone cases are the reason we entered into the wholesale market. These cases have been huge hit in local gift shops. Made to fit most flip and candy bar style cell phones. They are made with top grain leather and are lined with softer leather. They attach to the belt or pocket with a heavy spring clip. We stamp our cases with many different Alaskan designs.

Business Card Holders

We originally made these as a custom order item but before long we were selling so many that we added them to our wholesale brochure. We find that folks like to use them as small wallets.
